Przemyslaw Pietrzak

Curriculum Vitae

*Software engineer specializing in web applications,
enthusiast of new technologies (but only if are better than
old ones). Open source and functional programming fan*

Experience

01.2017 - **Software Engineer**, *FSecure*.
Develop, maintenance and pay off the technology debt
- Implement new fontend logic and views
- Overwrite development, building and deployment tools
- Write and support selenum tests
- Configurate Jenkin scripts

11.2016 - **Co-founder and Product Engineer**, *Help Desk itepe.pl*.
Writing task managemtn application
- Planing architecture and features
- Implement buissnes logic, UI and websocket communitaion
- Unit and selenium testing

05.2016- **JavaScript Developer**, *ClinWork*.
12.2016 Develop, build UI and support Desk applications
- Implement business logic by reactive streams
- Integrate client side with XMPP and websocket protocol
- Build UI on react and redux
- Unit and selenium testing

06.2015- **JavaScript Developer**, *UsabilityTools*.
05.2016 Develop, build UI and support Session Recording
- Tracing users actions, DOM changes
- Present tracked actions as movie
- Build UI on AngularJS

06.2015- **Junior Web Developer**, *IT Collectiv*.
05.2016 Building web applications using Python, JavaScript, PostgreSQL
- Building static web application

Education

2014 - **Computer Science**, *Poznan University of Technology*, Berkeley, *GPA − 8.0*.
First Class Honours

2011 - 2014 **Power Engineering**, *Poznan University of Technology*, Berkeley, *GPA − 7.5*.
Specialized in Commerce

Volunteer

2014 -	**Mentor**, *PyLadies Poland*.
	Teching beginners programmers python
07.2016	**Volunteer**, *Polyconf*.
	Keeping conference stuff
2013 - 2014	**Core member**, *Web application science Club*, Poznan University of Technology.
	Organize technology meetups

Skills

Frontend	Manage state of application, implementing business and design
Backend	Design API architecture, database model
Testing	End to end testig, Integration testing (HTTP and XMPP), unit testing
Methodologies	Countinues integration, TDD, scrum, git flow
Soft	Teachning, Assertiveness, Public speaking

Technologies

JavaScript	AngularJS, React, Rx, RamdaJS, mocha/jasmine, TypeScript, DOM
Python	Django, Flask, Tornado, pyTest
Selenium	PyTest Selenium, Protractor, Nightwatch.js
Databases	SQL, Postgres, Elastic(basic)
Other	Linux, Bash, Jenkins, Git, CSS
Iin progress	Scala, Go

Languages

| English | **Fluent** |
| Polish | **Mothertongue** |

Interests

- Old movies
- Technology
- Swimming
- Blues music
